

Special Courses 'De-Rust' Wives Who Want to Work

By Aileen Snoddy
Newspaper Enterprise Assn.

NEW YORK—(NEA)—For 860 several hundred housewives sick with the fear of stagnating in the suburbs are finding their way back to the job market. The goal, though, essentially is not money but fulfillment of a deep urge "to do something constructive."

These women are all college graduates who take part in 10-week sessions held at Barnard College here to find out where they want to go and how to get there.

According to director of the Seven College Vocational Workshops, "We don't take a woman who knows what she wants to do." The hope of this former personnel director and employment agency head is to help educated women bridge the gap between their job-retirement and a return to work.

"I also hope the program, which is being repeated in many forms in a variety of colleges throughout the United States, will in some way get teenage girls to realize they must prepare for the three stages of life," Miss Cronin explains. "I hope we won't have to de-rust them as we are doing with their mothers now."

The seminars made possible by a grant from the Carnegie Corp. draw women graduates from more than 100

Dr. Jessie MacWilliams, mother, hiker, folk dancer and mathematician, epitomizes the educated woman who bridges the problems facing the housewife-professional successfully. A specialist in computer programming, Dr. MacWilliams is shown with a student in her communication theory class for Bell Telephone Laboratories.

The loss of educated women in the job market was among the late President Kennedy's concerns. Some progress is being made, but Miss Cronin pointed out the slowness by saying that 55 per cent of all college graduates now work at inferior jobs. And 86 per cent of these were professional women who never quit working but "accepted their lot."

A telephone survey of a half dozen corporations in the "giant" category reveals that big industry is doing little to seek out women with advanced degrees or special skills. The executives' reactions to the question of reclaiming women with science or math skills, for example, were hasty assurances that they would be happy to consider any woman who walked in to apply for a job but they weren't shopping for them.

Can the United States afford to lose such women? Some executives are beginning to feel the country can't. According to Dr. A. D. Kellner, director of personnel for the I.T.T. Federal laboratory in New Jersey, there is a serious need for computer programmers, data processors, communications specialists and engineers. Programming, especially, is an excellent field for women with a math background. Dr. Kellner says, where they can compete on the same level as men. He also cited the need for 700,000 more engineers by the end of the decade. "Certainly this is a fertile field for women," Dr. Kellner says. "They can do as well as men in engineering."

Dr. Kellner felt the area of programming ideal for a woman because "there is less tradition to overcome in the man-woman relationship."

An Englishwoman found this to be perfectly true. Dr. Florence MacWilliams of Midletown, N.J., returned to her career in mathematics when the youngest of her three children was nine years old. As Dr. MacWilliams tells the story, "I think it was a good thing for the children. They became a lot more capable of looking after themselves. And my husband was an absolute brick about my daughter and I going to Cambridge University (where she taught a year) in 1964."

Dr. MacWilliams is a computer programmer at Bell Telephone Laboratories in Holmdel, N.J. Her specialty is data transmission where she works on procedures to insure accuracy when information is sent from one computer to another.

An ardent hiker and folk

dancer. Dr. MacWilliams also teaches a course in communication theory in the company's graduate study program.

It's all "jolly hard work but rewarding," she says. But the program of juggling a job and caring for the family led her to suggest that industry work to set up part-time jobs in such fields as programming for women who wish to work while their children are growing up.

"This way," she explains, "women could keep up-to-date in the field and be more current when they are able to work on a full-time basis."

Dr. MacWilliams' suggestion (also being considered by some major corporations who need mature, trained employees) and the seminars such as Barnard may go a long way to save the women in their late 30s, early 40s, whose "heads are aching because there is no food in them," from suburban boredom and despair.

Mary Brooks Picken on Sewing

Dress Well, Using Remnants

by Mary Brooks Picken
Newspaper Enterprise Assn.

Remnants on sale, sometimes as low as half price, are valuable only when you know how to use them to advantage.

For example: If you find a piece 58- to 60-inch wide and 1 1/2 yards long, you can easily make a sleeveless shift. One and three-quarters yards would make one with sleeves, if you take time to lay pattern pieces on very carefully.

In narrower fabrics, the shift dress requires only two lengths of fabric; i.e., 2 1/2 to 3 yards at the very most. Sometimes it is possible to find a remnant that will make a shift dress. A remnant may make a skirt, a blouse, a shell or a stole.

Otherwise 1/4-yard of matching or contrasting material can be used for an insert at the waistline or for the popular granny yoke.

Throughout these columns, I have encouraged the buying of quality fabrics. Buy the best you can afford, a pattern right in size for you, then cut and sew with the idea of creating something you will really be proud of. You sew for economy certainly but, first of all, sew for smartness and the quality look that is so essential.

There are so many ways in which you can bring your own designing skill into action and really create a lovely dress that is individual and pleasing and at a minimum of cost.

Your own good taste will tell you not to be bizarre in what you do. Follow fashion's dictation, use the very best

practices of the best ready-to-wear, but do not be afraid to express your own individuality.

Right now is the time to sew to fill in empty places in your wardrobe, because by now you no doubt know what you will be doing this spring and summer — whether you need sports, play or dress-up clothes.

Plan your color schemes so you will not require a half dozen pairs of shoes or handbags. Visit the remnant counters as suggested here.

Dare to be individual, but never out of line, and you are sure to have clothes that are right for precious vacation days and to wear spring and summer.

From Philip to Harlem Riots

Topolski Looks for The 'Border Zone'

TOPOLSKI & FRIEND: Artist Felix Topolski, with a gleam in his eye, poses with his giant portrait of Prince Philip. The prince's head seems to blend into the background.

of news who roams the world making quick sketches of history as it happens.

In his London studio, which characteristically is located under a railway bridge with trains continually rumbling overhead, Topolski explains that it is he is looking for

"What interests me as an artist is the border zone, the no man's land where opposing forces are locked in a life-and-death struggle," he says.

Some of his best work has been done under fire, so to speak. During the London Blitz Topolski's habit of sketching in the streets during bombing raids landed him in the hospital for two weeks with splinters of metal and glass in his back, souvenirs of a bomb explosion.

More recently, Topolski did a memorable series of sketches in the Harlem riots in 1964. His New York friends were afraid to accompany him, so the Polish artist sim-

ply hired a taxi and cruised the streets of Harlem for hours, sketching furiously.

There was a bad moment when the taxi stopped at a traffic light and some rioters surrounded us. Fortunately, the cab doors were locked, the windows were rolled up tight, and the light changed to green.

Topolski's portraits of the famous have been criticized because they seem to search out signs of corruption and decay. Topolski is more interested in a man's face and in the tone and texture of his features, he says.

"I exaggerate and I even satirize," he admits. "But again I am interested in that borderline state where the face changes from one thing to another. I am looking for the life-and-death struggle in the human face."

Topolski is essentially a mural artist. Portraits are

child's play," he says. "What I like to do is huge panoramic compositions that sum up a whole decade or a epoch in my life."

One such composition was "Cavalcade of the Commonwealth," measuring 60 feet by 20, which he painted for the Festival of Britain, and which now hangs in a gallery in Singapore. Into this huge canvas he worked hundreds of figures whom he had sketched on a trip around the world.

Individual shares for club expenses need to be spelled out

Jack Klugman, an Emmy Award-winning actor for his performance in "Blacklist" on The Defenders, is so strong in his belief that New York is the place for him that he turned down a lucrative television series offer in order to take a temporary job on Broadway. He is playing Walter Matthau's role in the hilarious Neil Simon play, "The Odd Couple," until Matthau returns from a movie-making job at the end of February.

"It's like taking a clothespin off your nose, coming back from California and getting in a good play. I'm so glad to be back. I'm so happy."

Jack, an actor of great range, has had experience as a television series star and is grateful for the lessons he learned. Last season he played in Harris Against the World, a segment in NBC-TV's 90

Bristol Court. The show was not a success.

"I think we could have made it, but when reviews are bad, networks panic. But I made a lot of money and I learned a lot, notably that I like to live in the East. And no one promised me it would be King Lear."

Still, when Jackie Cooper, as head of Screen Gems production, offered Jack a series called Operation Razzle Dazzle, he indulged in a two-week orgy of soul-searching.

"The show was to be produced by Danny Arnold, a

man for whom I have a lot of respect. Cooper was very insistent and nice. They offered me a lot of money. In fact it was the best offer I ever had. So I went home to my wife and suggested we talk over all aspects of the deal. We talked for two weeks. Finally, I told her that if we turned the offer down it would mean we would never return to Hollywood. But we hadn't been happy living there, so I said no."

Klugman will go to Hollywood to appear in a television show or a film that suits his fancy, but not to live. "We live in an age where actors are specialists. We have stage

actors, film actors, television actors. Well, I just want to be an actor, in all fields."

He has also found that he can make more money in the East, on Broadway.

"Prices are coming down in television. Lower prices are being paid. Quinn Martin, who produces The Fugitive, The FBI and 12 O'Clock High, is one of the few producers who still pays top prices. I know that James Mason, who is certainly a big name and a top actor, did a four-parter on

sloppy sportswriter in "The Odd Couple," after Matthau leaves the show in June. "But I don't know. Walter Matthau is the funniest actor in the business today. He doesn't get excited, he's true to the

character, he's a lovable bear. We have a mutual admiration society. He tells me I'm the only actor who could replace him, and I tell him he is completely irreplaceable."

Klugman has been asked to return to the role of the

Dr. Kildare for less money than I would take.

"It's our fault, and show like The Defenders are responsible. The top for that show was less than a third of what most studios were paying, but they would get you with good scripts and lines about 'keeping television production in New York.' So a lot of us worked for less. Then the other studios started putting out feelers to big stars and they found they would work for less."

"But what is it to be a big star? It's not a way of life."

Klugman has been asked to return to the role of the

SOCIETY

Phone 7-3431 Between 8 A.M. and 4 P.M.

Calendar of Events

Thursday, March 3.
The Golden Age Club will meet Thursday March 3 at the Youth Center at 9:30 a.m. for an all day meeting. Each member is asked to bring articles they have made for display.
A covered dish luncheon will be served at noon. All members and prospective members are urged to come.

County Club Bridge Luncheon is set for Thursday, March 3 at 12 noon. It will be invitational and the meal will be pot luck. Hostesses are Mrs. Lester Goodwin, Mrs. Charles Jones, Mrs. R. M. LaGrone and Mrs. C. M. Boyett.

Chapter 328, Order of the Eastern Star, will have a regular meeting at 7:30 p.m. Thursday March 3.

The Gardenia Garden Club will meet at 1:30 p.m. Thursday March 3 in the home of Mrs. S. Charles Flowers, 823 Jones Street, with Mrs. Wallis Monroe, co-hostess. Mrs. Paul Rawson will have the program.

Friday, March 4.
The Rose Garden Club will meet at 2 p.m. Friday, March 4 in the home of Mrs. J. O. Luck with Mrs. Herbert Dodson, co-hostess. Each member is asked to bring something for the Green Box.

Monday, March 7.
Circle 3 WSCS of the First Methodist Church will meet Monday, March 7 at 2:30 in the home of Mrs. Alvin Willis, 610 East 14 Street, with Mrs. E. S. Burke as co-hostess. Mrs. Foy Hammons is the leader.

The Hope Community Theater will meet Monday, March 7 at 7:30 p.m. in the home of M. R. and Mrs. Andy Collins on Elm Street.

Wesleyan Service Guild No. 1 will meet at 7 p.m. Monday, March 7 in the home of Mrs. B. C. Hyatt.

Thursday, March 10.
The Daffodil Garden Club will have its annual Dessert-Bridge and Style Show on Thursday, March 10, 12:30 - 4 p.m., at the Hope Country Club. Tickets are \$1.25 and may be purchased from any club member.

Wesleyan Service Guild "Destroying Our Resentment" was a thought-provoking message which Mrs. Jamie Russell brought to Wesleyan Service Guild No. 2 at a meeting in her home on Monday, February 28. She followed it with a "Recipe for Happiness."

Candles and a picture of Christ made a pretty worship center for the meeting. After the period of inspiration, the president, Mrs. Hinton Davis, had charge of the business meeting and announced a Guild Week end to be in Arkadelphia March 12-13.

Besides the group of Guild members, Mrs. Birkett Wylie, a prospective member, was also present. All cut and rolled bandages in a Guild Project for the needy and ill. A dessert plate and coffee were served at the conclusion of the meeting.

Hope Duplicate Bridge
The Hope Duplicate Bridge Club met at the Hope Country Club on Monday night, February 28 with 3 tables of players. Winning couples were: first, Mrs. Taylor Stuart and Mrs. Paul Lewis; second, Mrs. R. L. Broach and Mrs. E. P. Young, Jr.; third, Mrs. Bill Wray and Mrs. George Robison.

Coming and Going

Mrs. B. C. Hyatt is visiting the Ben Hyatts in Perryville this week.

Mr. and Mrs. John David Whitlow and two children, Little Rock visited the Jewel Moore, Jr., family this weekend.

Mrs. Albert Graves returned home last Friday after visiting Mr. and Mrs. Hunter Long and two sons, Summit, N. J., and Col. and Mrs. W. H. Hitt, Falls Church, Va.

Honorary Title
The British title of Prince of Wales is purely honorary. Sons of British monarchs do not inherit the title and it is newly created for each new prince.

PRETTYING POOFEEY—While her own hairdo is touched up before a scene, actress Elke Sommer pretties up her toy poodle, Poofey. There's more to it than an extreme case of canine vanity. Poofey got in on the act also, appearing with her mistress in a scene for the picture "Money Trap."

Queen Sees Beauty and Poverty

LONDON (AP)—Queen Elizabeth II's Caribbean tour has given her a first-class view of some of the world's most lovely islands, and of something else the tourist posters never mention—their poverty.

When she and her husband Prince Philip, arrive in Kingston, Jamaica, Thursday about the royal yacht Britannia she will have seen islands described in one correspondent's dispatch to winter-weary Londoners as "handfuls of jewels in the iridescent baize of the sea."

She also has had a chance to see the plight of the poor in the playgrounds of the wealthy.

The Leeward Island of St. Vincent, wrote the Daily Telegraph's correspondent, "was the first place no the royal tour to welcome the queen without a red carpet. But although the island could not conceal its shabby poverty, 15,000 islanders, most of them without flags and some without shoes, showed they could cheer as well as anyone else in the densely packed streets."

On St. Kitts, where the queen was greeted by shouts of "Welcome, dear one," a shopkeeper in Basseterre's central street remarked:

"We don't need independence, we need money."
British press, radio and television, while enthusing over the beauties of the island possessions, also have urged economic and social advancement from the British government.

Television and Radio

By CYNTHIA LOWRY

AP Television-Radio Writer
NEW YORK (AP)—NBC had us watching television with pencil and pad again Monday night, this time testing ourselves on the quickness of our eyes and ears.

We were asked, in more than 60 questions, to pick the larger of two disguised circles, to judge the speed of several moving vehicles, to describe characters in a riot scene and to report as witnesses of a staged chase scene.

The program underlined the fact that many personal factors — emotion, surprise, background, training and prejudices among them — are likely to distort and color our observation. The quiz, however did have one unusual aspect: the correct answer to at least one question was "I don't know."

But enough is enough. In the past year I have tested my driving, my knowledge of diseases, my citizenship, my honesty and now my eyes. Next month CBS wants me to test my knowledge of income tax regulations. And then, I hope, the networks will give this particular format a rest for a while.

Perry Como's guest stars, Judy Garland and Bill Cosby, picked up the usual lazy pace of his monthly variety show agreeably Monday night.

There was a tongue-in-cheek bit of spy nonsense by Cosby running vaguely all through the show. Miss Garland's numbers were gay and off-hand. Cosby's monologue was amusing. The hour, which sometimes moves very slowly, zipped by.

"To Tell the Truth," CBS' long-playing Monday evening game show, is expected to go to late Sunday afternoon to replace "Mr. Ed." "Gilligan's Island" will probably lead the Monday night schedule next season. A comedy series starring Jean Arthur is the probable show to replace "Hazel."

NBC's fall schedule is expected to contain 10 new series. CBS will probably have eight, plus another two hours of old movies.

Altogether, that represents at least 35 new shows — a larger turn-over than usual.

Minor Surgery for Karloff

LOS ANGELES (AP)—Actor Boris Karloff, who rose to fame as the star of horror films, was reported in good condition following minor surgery at Good Samaritan Hospital.

Karloff, who is 78, entered the hospital Feb. 14.

A hospital spokesman said Tuesday that no date has been set for the actor's release.

Bob Thomas at the Movies

HOLLYWOOD (AP)—How do you like your Shakespeare?

"Heaven's face does glow, And this solidity and compound mass: with heated visage, as against the doom, Is thought-seek at the act."

Or like this? "Heaven's face does blush, And this great mass, this solid globe of earth,

With gloom-struck visage, as if doomday's here, Is thought-sick at the act."

If you favor clearer, more understandable Shakespeare, then you have found a champion in the famed director Rouben Mamoulian. He is the editor of a new version of "Hamlet" (Bobbs-Merrill, \$5), which he hopes will help restore the Bard to the ordinary people for whom he wrote.

The Armenian-born Mamoulian writes of seeing "Hamlet" performed and reading it in Armenian, Russian and French as a youth.

"When I began to learn English, the greatest thrill I looked forward to was to read (Shakespeare) in the original," he recalls. "This I did, but with a shocking result: I couldn't understand half of it."

Many a plodding high school student has discovered the same thing. For the benefit of them and others seeking the joys of intimacy with Shakespeare, Mamoulian devoted years in developing a modern text.

He was no indiscriminate hacker of lambics. Long a creative director of plays ("Porgy and Bess," "Oklahoma") and films ("Golden Boy," "Blood and Sand," "Silk Stockings"), he came to the task with knowledge of stagecraft and a passion for clarity. He describes the nature of his revisions:

Some 2,000 archaic words were modernized; 100 long or confusing lines rewritten; 510 extraneous lines eliminated; spelling brought up to date; punctuation revised; the play reduced from five to four acts; time intervals, stage directions and ages of characters inserted; some monologues turned into dialogue.

What he is trying to do, he emphasized, is to rescue Will from the pedants. He says: "The reading of 'Hamlet,' instead of being the lusty, exalted pleasure it should be, has become a tiring task of study and research."

Mamoulian said at his Beverly Hills home that the reception to the book thus far has been fairly favorable. But then perhaps the Shakespeare fanatics have not yet had time to load their muskets.

HELEN HELP US!

by Helen Bottel

He Hears What She Doesn't Say

Dear Helen: My first husband was very mean to the children and me. Especially his older sons, but there were high-spirited and grew up well-adjusted, in spite of it.

Now I have remarried to a wonderful man — a good husband and father. My children love and respect him, but my problem is my 16-year-old son.

My husband expects the children to do a few chores. He also insists that they ask permission to go anywhere, even if it's next door. And they have a limited time to stay.

My son sees other boys coming and going as they please. His spirit seems to be broken found her drying her hair with school. I worry because he has so air blew out instead of suck-poor. I have put a big burden on my husband and I feel as if I have failed as a wife and mother. Some words of encouragement would help. —Desperate

Dear Desperate: First of all — don't think "failure." It is catching. You and your son have been temporarily disconnected, but if you'll be patient and stop wringing your hands, he'll probably repair the lines himself.

A teenage boy feels pressures, indecision, rebellion — problem — he often can't talk about. Yet he blames his parents for not understanding the troubles they don't even realize exist. The more they push about obvious things — chores, grades, "little kid obedience," the faster he pulls away, and all the while he is feeling sorry for himself because, "Nobody cares: all they want out of me is work, but they treat me like a 10-year old."

Your son may be carrying resentments formed against his real father into his relationship with his new father. I'd suggest your husband relax his discipline and demand and try becoming a friend as well as a parent. It will take a while! And it will take a lot of holding back when he'd much rather "boss."

YOUR role, Desperate, is not to wall "How have I failed?" but ask "How can I help?" Best help comes when mothers learn to listen, without lecturing. —H.

Love Thy Neighbor? But Stay Home!

Dear Helen: My husband says I visit with the neighbors too much. I tell him the Bible

says, "Love thy neighbor." Besides I get bored sitting home, so I chit-chat with the gals several hours a day. Anything wrong with that? — Sociable.

Dear Soc: The Bible also says "Let your foot be seldom in your neighbor's house, lest he become weary of you and hate you." (Proverbs 25:17.) Don't overdo it! — H.

Improvising Wife

Dear Helen: My wife has never followed a direction in her life, that is if she can figure out a different way. When she gets something new for the house she starts figuring how many things she can use it for beside what it is meant to be used for.

I can home the other night & find her drying her hair with a vacuum cleaner. Yeah, no lie, she had the hose reversed so air blew out instead of suck-poor. I have put a big burden on my husband and I feel as if I have failed as a wife and mother. Some words of encouragement would help. —Desperate

CORE Gets a New Leader

NEW YORK (AP)—The post of national director of the Congress of Racial Equality passes today from James Farmer to Floyd McKissick.

McKissick, a lawyer, has served as CORE's national chairman, a sort of chairman of the board of directors. Farmer is leaving the top post in CORE to head a national literacy program.

CHATTER

By "BILL"

According to predictions from Interior Designers for tomorrow's homes we will have dust-proof rooms with sonic waves to remove dust from our clothing.

What we are really waiting for is some sort of sonic wave to remove the clothing we are sick and tired of wearing and give us room and reason to splurge on something new!

Our first choice would be the silk and linen ensemble at Raley's!

It is about the smartest thing we have seen lately, a full length linen coat and under it a printed silk dress. Looks like something you dream about but seldom find. In both Misses and Half sizes. We also like the pink ensemble, a coat that could be worn with lots of other things and underneath it a basic dress with a V neckline that adheres to pins, scarfs and things and a tie belt. It's slimming; it is smart; it is sophisticated. . . and you can absolutely wear it anywhere. You can also find knits in dresses or suits. The way you can pack or wear a knit without a wrinkle, it's no wonder that 80 per cent of the new styles are knits!

When you work in a dress shop, you sometimes see so many lovely clothes, you finally get to the place where you aren't interested. But this year, we seem to want everything that comes in! There is nothing so different about this spring's styles, but they have an elegance that makes you want to try them on, and once you do that, it is merely a matter of which ones to take.

If we had more space, we would describe the Kabro of Houston dresses, but as it is, we will just invite you to see for yourself. . . we would like to say they are really something this season and look twice the price. . . \$17.00 to \$30.00. We will be looking for you at Raley's Style Shoppe, Hope's House of Fashion.

Sues Johnson to Abolish Draft

LANCASTER, Pa. (AP)—A young man who has sued President Johnson to abolish the draft, quietly entered military service Tuesday.

David A. Baumann, 19 of Columbia, Pa., arrived at Lancaster's Selective Service office with his parents, Mr. and Mrs. William Baumann.

The youth answered a roll call and boarded one of three buses with eight other draftees and 98 pre-drafts.

Baumann, valedictorian of his 1964 high school class, has filed suit against President Johnson in the second District Court of New York to abolish the draft.

Hope Star SPORTS

4 Points in the Final Seconds Beat Bobcats

By LARRY DON WRIGHT
Hope Star Sports Writer

The Texarkana Razorbacks scored four points in the last 10 seconds of the fourth quarter to finally overcome the Hope Bobcats, 63-61, last night at Texarkana after the Cats had led almost the entire game.

For the Bobcats of District 4AA it was a heartbreaking defeat since they had led the Razorbacks of powerful Class AAA by as much as 13 points through the course of the game.

Bobcat Stan Parris sunk a beautiful set shot from the corner with only 13 seconds remaining to break a 59-59 deadlock. Then immediately Texarkana called a timeout with 10 seconds showing on the clock and trailing by two.

The Hogs brought it down fast and with four seconds left Dickie Skinner sacked up a jumper from the side to tie up things. Then Hope grabbed the ball and tried to get in quick for another shot.

But the haste of the Cats allowed Stan Collins of the Hogs to jump in front of the Hope pass and take the ball he put it in from directly under the basket as the final buzzer sounded ending the game.

The Bobcats grabbed the lead early in the first quarter and didn't give it up until late in the third period and then only momentarily.

Hope laid it on the Hogs the first half pulling off their much rehearsed fast break to perfection and stealing Texarkana passes going and coming.

With only 40 seconds left in the second quarter the Bobcats commanded a 13 point advantage but Texarkana narrowed this somewhat before intermission and Hope was ahead 39-30 when the buzzer sounded.

But immediately following the halftime the Porkers began to strike in retaliation. The home cagers scored eight points on four consecutive field goals to tighten the gap, 39-38.

After that the two teams battled point for point although the

Bobcats were on top more often than not. Still the lead never exceeded five points right up until the Razorbacks final heroics.

The loss ran Hope's season mark to 15 wins and 8 losses with only a single game remaining.

Ronnie Ingram was high point for the Bobcats with 19 followed closely by Dennis Ramsey, who had 18. Others scoring were Larry May who had 12, Stan Parris who sacked 8 and Bobby McGill who tossed in 4.

The Bobcats will close out the season Thursday night at Jones Field House when they take on the Camden Panthers.

Currently holding down third place in the conference standings the Cats could possibly move into a tie for second place if they beat the Panthers.

However more is riding on what the current second place team, Smackover, does Thursday. Smackover lost to first place Crossett last night, 58-57, as their district record fell to 11-4 as compared to Hope's 10-5.

If things do possibly wind up in a tie for second there would probably be a playoff game on Saturday to determine what position the teams would take to the State Tournament next week.

There would be plenty riding on a game of this sort, because the second place team from District 4AA plays the fourth place team from District 2AA while the third place team from District 4AA will meet District 2 AA's first place team in the Tourney.

There is a good bit of difference.

Still right now there is more riding on how Smackover fares Thursday night.

Yerger Fives Clobbered by Camden

By CALVIN MULDRON

Yerger's A and B teams were clobbered last evening in Harris gym by Camden. The A team was defeated 67-49 and Lincoln's B team triumphed with a 52-36 win over Yerger.

Lincoln's B team gained control of the ball and after getting a 3 point advantage over Yerger, 9-6, was ahead all through the game.

Yerger was fouling, missing shots, and allowing Lincoln to get more than half of the rebounds. But with all of this, Yerger was still trailing by only four points, 26-22 at the end of the half. Yerger fell further and further behind in the third period. They were behind 32-40.

The 52-36 win for Camden came in the final 7 minutes. Lincoln was playing mostly defensive ball in the second half. They allowed Yerger to make only 4 points the final period. Doing this, they were able to put 12 more points on their side of the board before the horn blew.

Yerger's A team was defeated with the same techniques as the B team. Their tallest member of the team wasn't rebounding as expected in the first half but was able to slip several points on the board for Lincoln.

Mauldin, high scoring player for Yerger, was the only member of the team to score two points in the third period.

It was in the fourth period that most of the excitement came. Standokes managed to lay in a beautiful hook shot over Patterson and Patterson drove in to display his dump shot. McFadden of Yerger, and Geals from Lincoln, were the next high scorers. McFadden had 10 and Seals, 18. With that, and the defensive ball playing of Lincoln in the second half, allowing Yerger to make only 2 points in the third period, led to Lincoln's 87-49 win over Yerger.

Yerger will meet Prescott tonight in the District tournament at Rosston.

Aggies, SMU in Tie; Hogs Lose to Texas

By TED MEIER
Associated Press Sports Writer

Only a few weeks ago the Connecticut Huskies were considered out of the running for the Yankee Conference championship and a berth in the NCAA college basketball tourney opening next Monday.

Today the Uconn's are tied with Rhode Island for first place in the conference and are favored to beat the Rhodes in a playoff Friday for the right to play Davidson at Philadelphia Monday in the first round of the NCAA.

The Huskies gained the first place tie with Rhode Island by beating the Rhodes 96-74 Tuesday night for their 10th victory in their last 11 games. The luck of the Uconn's continued after the game. They won the toss of a coin to determine the site of the playoff. It will be Connecticut's home court at Storrs, also the site of Tuesday's game.

It appears that there also will be playoffs in the Big Eight and the Southwest Conference to gain NCAA berths.

Ninth-ranked Nebraska, the only team in The Associated Press Top Ten to see action, whipped Kansas State at home 79-69 and tied Kansas for the lead in the Big Eight.

Both have two games left to play. If a playoff is needed, it will be next Wednesday, March 9, at a neutral site still to be decided.

Texas A&M, also playing at home, whipped Baylor 95-78 behind John Beasley's 37 points and tied Southern Methodist for the lead in the SWC. Each has one game to play. The playoff, if necessary, will be at Waco, Tex., on Monday with the winner meeting the Big Eight representative at Lubbock, Tex., March 11.

Penn won its first Ivy League championship in 13 years by defeating Princeton 56-48 in Philadelphia, but whether the Quakers will play in the NCAA still is undecided because of the controversy over the NCAA's rule on a 1.6 academic average.

If Penn does play, the Quakers will oppose Syracuse on Monday at Blacksburg, Va.

Holy Cross upset the NIT-bound St. John's University Redmen 63-60, snapping a 17-game winning streak for St. John's.

Two other tourney - selected teams, Houston in the NCAA and De Paul in the NIT, won. Houston won on the road over New Orleans Loyola 103-77. De Paul crushed Steubenville at home 101-67.

In other home court triumphs, Cornell beat Columbia 84-73, Yale defeated Brown 77-64, Wichita whipped Southern Illinois 87-80, Drake took Valparaiso in overtime 78-74, Villanova drubbed Seton Hall 91-67, Texas Tech defeated Rice 80-74 and Texas edged Arkansas 74-70.

On the road, Harvard beat Dartmouth 64-62 and St. Bonaventure defeated Kent State 65-56.

Vandale in Upset Over Caddo Gap

LITTLE ROCK (AP)—Substitute James Massey put in a lay-up with six seconds left to help Vandale to a 50-48 overtime victory over favored Caddo Gap Tuesday night in the Class B state high school tournament.

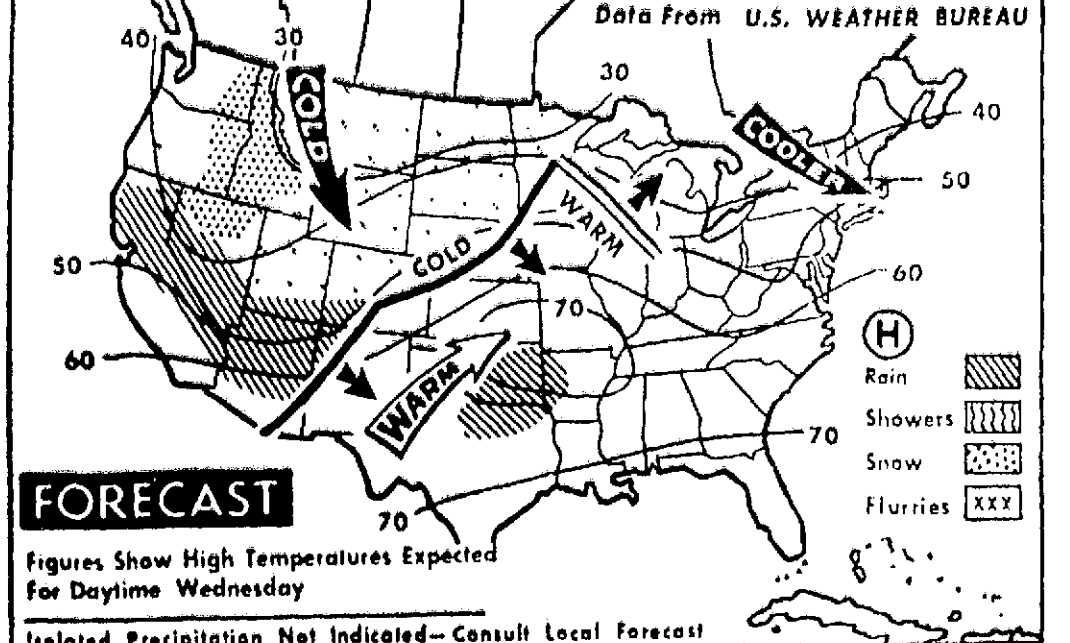

It was the only one of six Class A and Class B tournament games which went into overtime.

In Class A games, Fort Smith St. Anne's topped Marshall 62-52, Oak Grove beat Dermott 79-62 and White Hall, one of the A tournament favorites, ran through Mena 50-29.

In other B tournament games, Oil Trough beat Kingsland 87-70 and the defending champion, Greenbrier, defeated Biggers-Reyno 65-53.

Vandale came into the tournament with a 19-8 record, and Caddo Gap was 33-1. The Panthers rallied in the last minutes to tie the score 49-48 and send the game into overtime. Harold Peeler led scoring with 20 points.

Weather Report

SNOW FLURRIES and snow are predicted today from Minnesota west into Washington and Oregon and as far south as Nevada, where rain takes over up to northern California. There is a patch of rain forecast over Oklahoma and North Texas. It will be warm through the South and East into New York, and cold over the Rockies. (AP Wirephoto Map)

Weather

Thought For The Day

That friendship will not continue to the end, which is begun for an end. — Quarles said it.

Calendar of Events

The ina P. Strong Federated Clu will hold its regular monthly meeting at the Yerger High School old Home Economics building, with Miss Berta Brittain, hostess, Mrs. Estelle Spearman, President.

The Inter denominational Ministerial Alliance will hold its regular monthly union service at the Mt. Zion C. M. E. Church Sunday night, March 6, at 7 o'clock.

Rev. M. S. Riley, pastor of the Rising Star Missionary Baptist Church will preach. The Rising Star choir will sing for the occasion.

Obituary

John Q. Hawthorne of Prescott, passed away in a Texarkana hospital February 28, following an automobile accident.

Funeral arrangements will be announced by Hicks Funeral Home, Inc.

Funeral service for Pinky Bradley of Texarkana, who passed away February 26, will be held at the Mt. Miriam C. M. E. Church, Washington, Interment in Mt. Miriam Cemetery. Hicks Funeral Home, Inc., in charge of arrangements.

Father of Well Known Golfer Dies

ABILENE, Tex. (AP) — W. O. Maxwell, Sr., 77, father of golfers Billy Maxwell, Bobby Maxwell and W. O. Maxwell Jr., died Tuesday. He was a pioneer West Texas professional golfer.

Obituaries

Harlon P. Purdie

Harlon P. Purdie, 55, lifelong Nevada County farmer died near his home yesterday about 12 miles southeast of Hope. Mr. Purdie was overcome while fighting a grass fire and succumbed.

He is survived by his wife, Mrs. Allene Purdie, three sons, James Ray of Hope, Johnny Owen and Thomas Lynn Purdie of the home; five daughters, Diane and Debra Ann Purdie of the home; Mrs. S. Thompson Impson and Mrs. Charles Ward, both of Hope; Mr. George Negrete of Los Angeles, Calif., a brother, Olin Purdie of Hope; four sisters, Mrs. Mal Ellis of Prescott, Mrs. Ora Grant, Mrs. Henry Grant and Mrs. Charles Webb, all of Hope.

Oakcrest Funeral service will announce arrangements.

C. W. Roach

Charlie W. Roach, age 45, of Curtis died Tuesday morning in the Arkadelphia Hospital. He was a crane operator for Reynolds Metals Co. He was a member of the Richwoods Baptist Church. He was born in Emmet and was the son of Melvin and Eula Mae Perser Roach. He is survived by his wife, Mrs. Ruby Nell Clark Roach; two sons, James Gilbert Roach of Malvern and Kenneth Glenn Roach of Curtis; one daughter, Mrs. Orville Beals of Hot Springs; two brothers, Lige Roach and Clyde Roach both of Berine; 3 sisters, Mrs. Calvin Brown of Emmet, Mrs. George Morrow of Nash, Texas, and Mrs. Grace Parmer of Ogden.

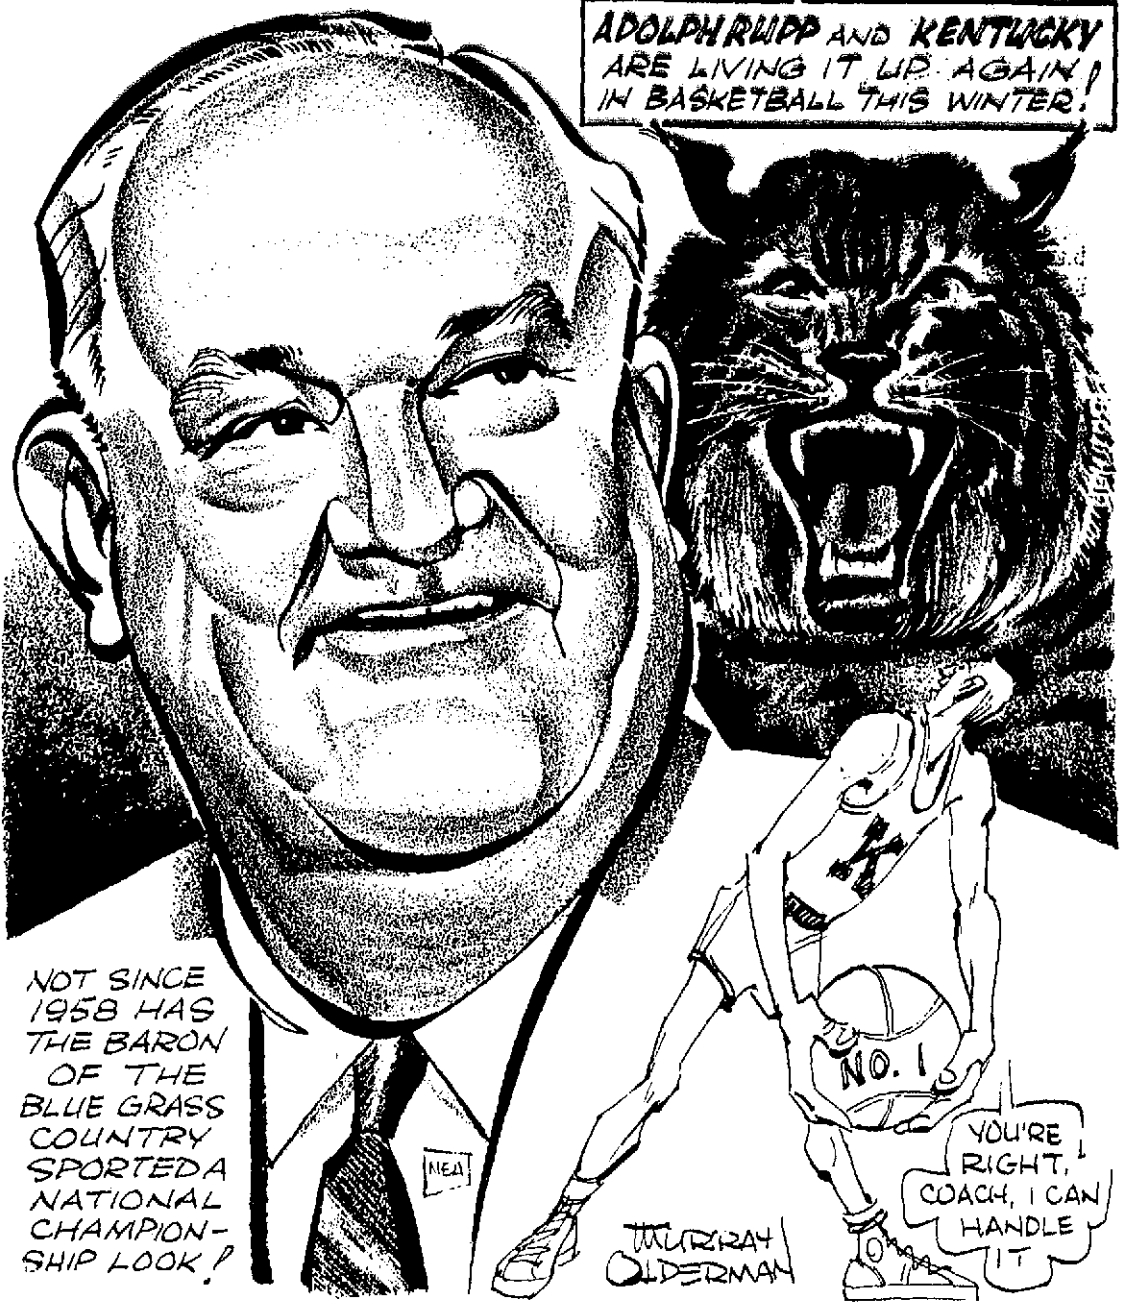

The funeral will be at 2 p.m. Thursday in the Richwood Baptist Church by Rev. Sam Turner and Dr. Maurice Hurley and burial will be in Snell Cemetery at Emmet by Murry-Ruglers Funeral Service of Arkadelphia.

Mrs. Joyce Lynne Collins

Funeral services for Mrs. Joyce Lynne Collins, 42, who died Monday, will be held at 2:30 p.m. Thursday at Prescott Church of Christ, by Rev. John Cannon. Burial will be in DeAnn Cemetery, Prescott, by Herndon-Cornelius.

Survivors include her husband Johnnie, two sons, Billy D. and Johnnie W. and a daughter, Betty Jean, all of the home; two brothers, R. W. Brown of Prescott, Wendall Brown of California, five sisters, Mrs. Harvey McKinnon and Mrs. Herbert Harris and Mrs. Frank Wilson, all of Prescott; Mrs. Lula Prentice and Mrs. Richard L. Dye both of California.

FAT CATS

ADOLPH RUPP AND KENTUCKY ARE LIVING IT UP AGAIN! IN BASKETBALL THIS WINTER.

NOT SINCE 1958 HAS THE BARON OF THE BLUE GRASS COUNTRY SPORTED A NATIONAL CHAMPIONSHIP LOOK!

'Weep No More'—Like Old Times at Kentucky

By SANDY PADWE
Newspaper Enterprise Assn.

LEXINGTON, Ky. — (NEA) — In Adolph Rupp's system, winning was as methodical as pressing the button on an elevator.

"Usually," the University of Kentucky basketball coach said, "we just went out and got the job done."

"But this group . . . and he hesitated for a moment. "Well, this group is different. They're emotional."

"I get along with this group very well. I'm very close to them. They do everything I ask them to do."

That, in Rupp's own way, is a compliment, and one thing Adolph Rupp isn't known for is sentiment.

"He has fallen in love with this team as he has with no other," says Rupp's longtime assistant, Harry Lancaster. The reasons are understandable.

It's a team without a starter taller than 6-5. It's a team that loves to run, and it's a team, as Rupp says, "which is completely selfish."

"I've seen times," he said, "when a boy is eight feet from the basket with a pretty clear shot and he'll pass to a boy six feet away with a better shot."

"This also is the finest bunch of ball-handlers I've had since I've been here, and what more can you say about them as rebounders? No one over 6-5 and they've only been outbounded twice all season (both times by Florida)."

Rupp has been at Kentucky 35 years and

has won four national championships, the last in 1958 with a team they called the "Talentless Wonders." This year's team has been dubbed "Rupp's Runt."

Pat Riley, a 6-3 junior, is the team's leading rebounder (10.2) and its leading scorer (22.1).

"When the pros get around to seeing him," Rupp said, "he'll get an \$800,000 bonus. I've had 22 boys play pro ball and he's a natural. He can really jump for a boy his size."

Louie Dampier, the 6-0 junior guard, leads the team in shooting percentage (52.6) and is right behind Riley in scoring with 21.9.

Against Vanderbilt, Kentucky's main rival in the Southeastern Conference this year, he scored 70 points in two games. "We couldn't do anything with him," said Vandy coach Roy Skinner. "I don't know if I have ever seen a better performance by anyone."

Larry Conley, one of the starting forwards, doesn't shoot much, but is the team's leader in assists. Tommy Kron is the other senior in the lineup and center Thad Jaracz (6-5) is a sophomore.

It has been a wonderful season so far for Rupp who is 64 and could retire to one of the largest Hereford breeding farms in the state.

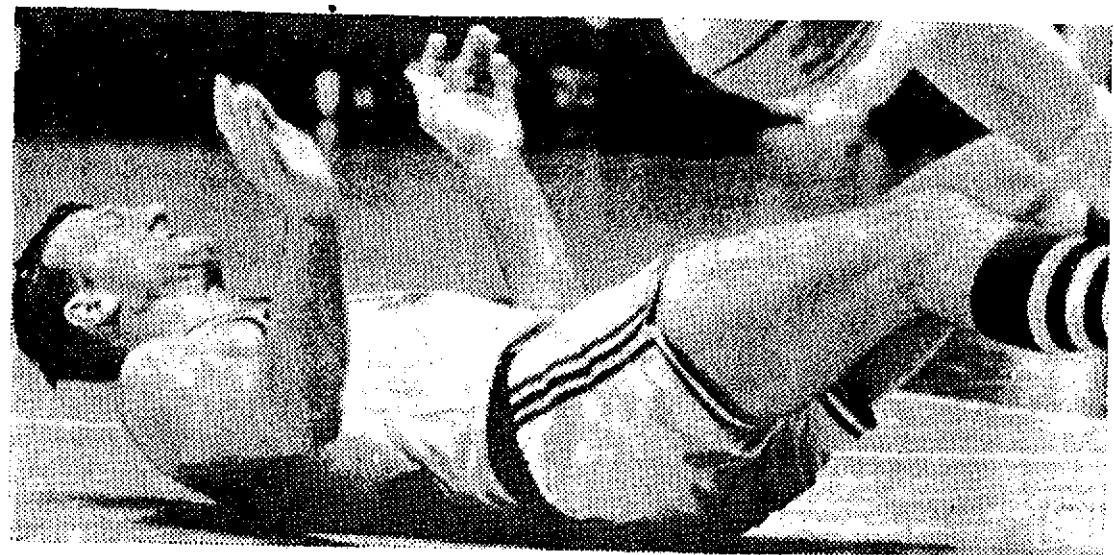

But there hasn't been any conversation about that. People are too interested in another national championship. That and another unbeaten season (the last was in 1954).

"I've been getting so much mail," Rupp said, "that I've had to put on an extra secretary."

"You know, we didn't really expect it this year. The whole thing has just exploded in our faces."

10	Andrews	John	9	72	38	58	78	98	116	124	152	172	191	219	259
11	Andrews	Jim	9	72	38	58	78	98	116	124	152	172	191	219	259

WASHINGTON—(NEA)—The Army troops who reside in the quiet little post that is Ft. Lesley J. McNair here seldom get excited about anything.

They are the men who coordinate and take part in official Washington ceremonies. They get to see President Johnson, big brass and visiting dignitaries just about every day.

So, until the other night the biggest thing to happen at Ft. McNair was the time

Major Frank Thomas shot a 59 on the post golf course.

Now Thomas' feat is ho-hum compared to what the Andrews brothers did. John and James Andrews, identical twins from Montebello, Calif., bowled identical 191 games—box by box.

The 25-year-old brothers assigned to the 902nd Intelligence Corps Group at Ft. McNair, bowl together on the same team in the 902nd League at McNair Lanes.

They have the same average, 161, and the same

handicap in the league, 12.

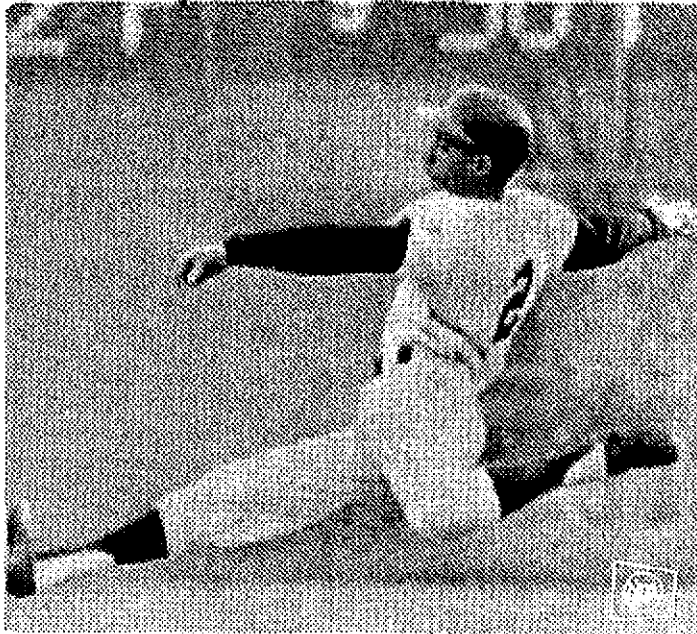

Both opened their incredible games with a nine box frame after each had knocked down seven pins with his first ball. Then they both struck twice, counted nine, spared and struck again.

One errant pin in the sixth frame marred an otherwise perfect duplicate performance. John's first ball left three pins, Jim's four, but both converted the spare so the perfect box-by-box score was kept intact on the scoreboard.

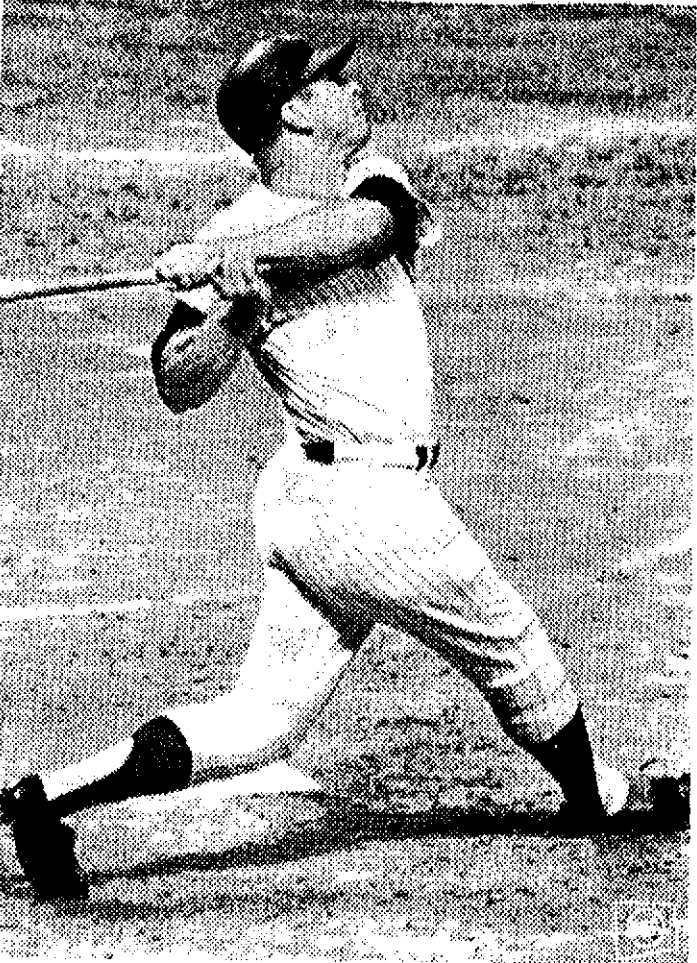

In the seventh, the look-alikes knocked down eight pins with their first ball and missed the two with their second. They both struck in the eighth and ninth, counted eight, spared and counted nine for the identical 191s.

Robert Ripley, himself, might have had trouble believing it.

Said one goggle-eyed spectator, "It was like watching the instant replay on television."

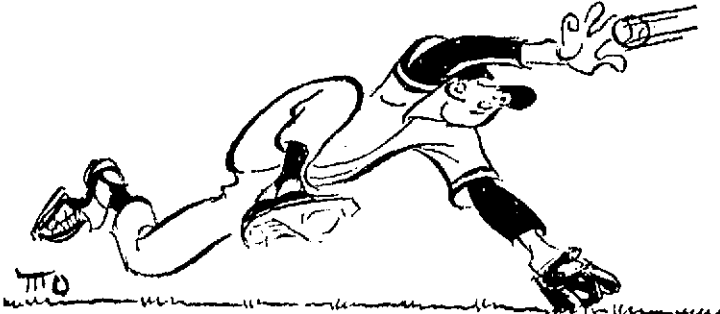

SOMETHING OF VALUE—Minnesota's Zolito Versalles the Most Valuable Player in the American League last season, will be back at short this year, hoping for an even better season.

PRIDE OF THE YANKEES—Mickey Mantle of the New York Yankees is recovering from a shoulder operation and hopes it will enable him to again swing as freely as pictured here.

St. Louis Cardinals

By SANDY PADWE
Newspaper Enterprise Assn.

PITCHING—The Cardinals have built a new stadium, and now they're rebuilding the team that will occupy it. Bob Gibson, a 20-game winner last season when the Cards slipped from world's champs to seventh, will be the No. 1 starter on a relatively young pitching staff. The youngsters like Larry Jaster, Don Dennis, Nelson Briles and Dennis Aust all have exceptional potential. Ray Sadecki slipped from a 20-game season to 6-15 last year and Curt Simmons was 9-15. Trades brought Art Mahaffey and Al Jackson who will battle Bob Purkey, Tracy Stallard and Ray Washburn for starting jobs. Hal Woodeshick is a capable relief man, backed up primarily by Don Dennis. RATING—C+

INFIELD—Two years ago it was the million-dollar infield of White, Javier, Groat and Boyer. Today, only Javier remains. Replacing White will be either George Kernek or speedy Bobby Tolan, both rookies. Tolan also plays the outfield. Kernek was a power hitter in the minors last year. Jerry Buchek has a good chance for the shortstop job and former Met Charley Smith will be at third. RATING—C

OUTFIELD—Speed is the main asset. Ex-Phillie Alex Johnson will be in left. Curt Flood in center and Lou Brock in right. Flood and Brock are established stars and Johnson, who hit .294 last season, could easily join them. Defensively, that is one of the best outfields in the majors. Offensively, they're steady hitters in the .290-.300 class. RATING—A

Haskins' Miners Dig But They Go Up, Not Down

By MURRAY OLDERMAN
Sports Editor
Newspaper Enterprise Assn.

NEW YORK (NEA)

Life used to be placid for Eddie Mullens. As relaxed as a bear holed up for the winter. Outside El Paso, interest in Texas Western didn't raise more howl than a coyote at high noon.

Eddie is the publicity man at Texas Western, a career man in the use of the simile and the metaphor. Last fall, the Miners crossed him up by producing a Sun Bowl football team after going winless in 1964. And now in basketball—or bounce-bounce as Eddie calls it—the Miners astounded the country by joining Kentucky as one of the nation's two major undefeated teams.

So Eddie had to dip deep in his bag of phrases—as deep as a water well in West Texas—to produce another report, as he did for NEA last fall, on the athletic fortunes of Texas Western. Here it goes:

"Building a basketball empire stronger than Mary's breath isn't as easy as operating an elevator in a one-story building and in most cases it requires more time than it takes for a minnow to swim a water dipper."

"At Texas Western, coach Don Haskins has been busier than a beaver in a toothpick factory since his arrival at the El Paso school five years ago."

"Haskins wired together a 25-3 record two years ago when Jim (Bad News) Barnes kept the opponents as nervous as a fly near a DDT factory. One of the big differences in Haskins' present team which reeled off 19 straight victories, and the one sparked by Bad News, is over-all depth."

"The Miners keep the nets waving like Maggie's drawers on a rifle range and four players are scoring in the double digits while two others are closer than a sweetheart's whisper to the 10-point circle. Spearheaded by Harry Flournoy, a 6-5 senior from Gary, Ind., the Miners also attack the boards like bee tree residents after a visit from Smokey the Bear. Flournoy can stand flat-footed and rattle the first limb of a coconut tree."

"In the past, Haskins screamed like Tarzan with his loincloth on fire when one of his teams used the fast break."

"We've never had the personnel to run before," Haskins confesses.

"Speed has been a big asset to the Miners this season. Such fellows as Bobby Joe Hill, a 5-10 junior, Nevil (The Shadow) Shed, 6-8 junior, Willie Worsley, 5-6 sophomore, Orsten Artis, 6-1 senior, leave opponents tripping over their tongues."

"David Lattin, a 6-7, 240-pound sophomore strongboy from Houston, has given the Miners more muscle than a Charles Atlas ad this season."

"This is an opportunity to make up for the 1963-64 season in which the Miners were felled by Kansas State, 64-60, in the Midwest Regional NCAA playoffs when Barnes was in foul trouble quicker than an old maid can say yes."

"Flournoy and Artis were sophomores on that team. Artis isn't a flashy player but he leaves opponents as nervous as a tobacco chewing klansman with his shooting ability."

"Haskins' recruiting lasso is wide. Worsley, a 5-6 sophomore who can dunk it, Willie Cager, a 6-5 handyman, and Shed are from New York. Artis is from Gary, Ind. (like Flournoy). Bobby Joe Hill, a 5-10 guard with enough speed to count the ribs of a jack rabbit, is from Detroit."

"Haskins will be the first to admit there are no miracle men when it comes to building a team but that perfect record proves they aren't doing it with mirrors. Their empire appears to be in like Flynn and there like Teddy Bear."

The effort left Eddie Mullens as pooped as, well, a columnist after he has made his deadline.

CATCHING—Tim McCarver is one of the best and he'll be backed up by Pat Corrales who came to the Cardinals in the deal with the Phillies. Dick Ricketts may be the No. 3 man. RATING—F

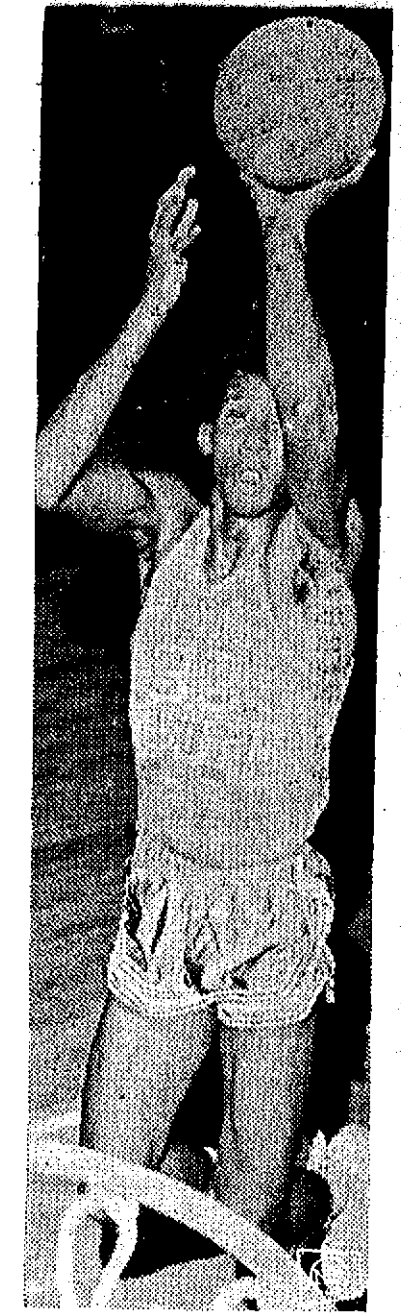

BENCH—Mike Shannon can even fill in at catcher in addition to the infield and outfield. Bob Skinner hit .309 in 80 games last year and is a valuable pinch-hitter. Dal Maxvill and Phil Gagliano are competent infielders and Tito Francona has plenty of power. RATING—C+

SUMMARY—There probably won't be many games separating the first and eighth place teams in the National League this season. The Cardinals, however, have too many questions on the pitching staff and in the infield. In this year's National League race, there is no room for the slightest doubt. Prediction—8th.

CAPITAL GAINS—University of North Carolina forward Bob Lewis, of Washington, D.C., is making a run for the nation's collegiate scoring championship. A junior, Lewis is averaging nearly 32 points per game and also ranks among the top 10 in the country in field goal percentage.

TIMELY QUOTES

The current practice of vesting the power to elect a president in electors whom few persons know and whose whims could subordinate the will of the people is an anachronism that no longer has a place in the American system. —Sen. Birch Bayh, D-Ind.

Mike is an old friend of mine. He wanted to go to jail and I wouldn't do anything to take away from his happiness. —AFL-CIO President George Meany, on union leader Mike Quill's jail sentence.

Outdoors

By DICK WOLFF
Newspaper Enterprise Assn.

Sal Muley is a very persuasive fellow. Sal is also a brave man. At a recent luncheon he gave in Chicago honoring Jack Sharkey, the former heavyweight boxing champion, Sal tried to persuade Jack that spinning was the only way to fish Sharkey, a top fly caster who topped the bill at the Vacation and Sports Show in Chicago, would have none of it. Like all true fly casters, Sharkey is an unsquibbable. It's like asking a chess man to switch to checkers, a bridge player to revert to

gin rummy. Not that checkers and gin rummy or spinning can't be pursued for fun and profit, but once a fellow masters a higher skill he finds it difficult to cast it aside.

Sharkey is a master caster, and, like all of them, he makes it look easy. He's strong, of course, which helps when one is trying for distance, but technique is the really important thing.

In fly casting, most people have trouble with the back cast. It's not all that difficult, but I suspect that trouble develops because

anglers take the name too literally. They think of it as "back" cast and try to throw the line behind them.

The trick is to think of it more as an "up" cast. Lift the line up off the water and "throw it at the sky," as they say. The weight of the line and the action of rod will carry it behind you. Then, when the line reaches the horizontal, you begin the forward stroke.

Of course, if you don't have the time to practice, you can always stick to spinning. A lot of good men do, including my pal Sal.

Male Nurses Sought by Armed Forces

By BOB HORTON

WASHINGTON (AP) — For the first time in history the Pentagon is asking for a draft of nurses — 900, all male. But defense officials hold little hope of getting that many.

"We are not optimistic about getting 900," one source said today. Reason: "We doubt there are enough men with qualifications."

The Pentagon said last week it had asked the Selective Service System to provide 700 male nurses for the Army and 200 for the Navy beginning in April. The armed forces have used male nurses in small numbers since 1955.

The requirements were attributed to increased numbers of casualties in Viet Nam and additional medical care needs resulting from the hike in over-all military manpower.

Why men nurses? Because women can't be drafted.

The Defense Department also has asked for a draft of 2,496 doctors beginning in July.

One source said the Pentagon has been given estimates that as many as 10,000 men in the 18-35 age bracket have received nurse training. But these estimates are discounted largely in view of the national shortage of medical personnel.

"There are no valid statistics in this area and frankly we doubt that we can come up with 900 draftable men who have the two or three years' necessary schooling," the spokesman explained.

Whatever the number actually drafted, most probably will not go to Viet Nam, sources said. The majority will likely be sent to Europe or other areas where U.S. installations have experienced a steady drain of well-qualified, career nurses who have been dispatched to Viet Nam.

Male nurses with three years' training at an approved school can enter the service commissioned as a second lieutenant at annual pay around \$5,200. Men with two years' schooling can get a rank of warrant officer at pay of about \$100 a year less.

More than 275 military nurses — men and women — now serve in Viet Nam. The Army has more than 200, the Navy and Air Force nearly 40 each. Of the Army total about 60 are men nurses, but only seven of these are assigned to combat units.

About 20 Air Force male nurses are stationed at various dispensaries throughout Viet Nam.

The word Dardanelles comes from the ancient Greek city of Dardanus, on the Asian side of the strait.

Opening lead — ♦ Q.

Today's discussion concerns a grand slam lost because declarer did not bother to plan his whole play before he committed himself.

Jim: "South took his ace of diamonds and remarked 'I'll play this quickly,' and played his ace of spades. East showed out and now South stopped to think."

Oswald: "If both opponents had followed to that first spade, South would have played a second spade and claimed because he could ruff one heart in dummy and discard the other three red cards on the high clubs."

Jim: "South was unlucky anyway. He led a low spade to dummy next. Ruffed a low club, entered dummy with the last trump there and was able to discard three of his red cards on the top clubs. However, the combination of the 3-0 trump break and the 5-1 club break led to his defeat."

Oswald: "Added to his own carelessness at trick two. Had he led a low spade to dummy he would have made the hand in spite of the bad breaks. He would have ruffed a club; led a second trump to dummy; ruffed another low club, entered dummy with the third trump and then he could have discarded all of his four red cards on the ace, king, queen and ten of clubs."

Jim: "The bidding deserves some comment. South merely rebid three and four spades because his partner's club strength might have been no use to him. Then North took over the Blackwood four and five no-trump calls."

Oswald: "South's final jump to seven spades was a fine bid. He was afraid his partner would be unable to bid seven and felt that his solid trump suit was enough for the grand slam. It was, but South's play wasn't."

♥ ♣ CARD Sense ♠

Q—The bidding has been:

West North East South

1 ♠ Pass 1 N.T.
2 ♣ Pass ?

You, South, hold:

♠ 2 ♣ K J 5 4 ♦ 10 8 5 4 ♣ Q 7 3

What do you do?

A—A raise is clearly indicated. We prefer the jump to game but a mere raise to three is almost as correct.

TODAY'S QUESTION

You jump to four hearts and West bids five clubs. North and East pass. What do you do?

THE DOCTOR SAYS

Common Hearing Block Can Be Eased by Surgery

BY WAYNE G. BRANDSTADT, M.D.
Newspaper Enterprise Assn.

The commonest cause of hearing loss in young and middle-aged adults is otosclerosis, a stiffening of the connection between the stapes and the other small bones in the inner ear. Hearing loss occurs when this stiffness reduces the ability of the stapes to vibrate normally.

Hearing depends on the transmission of vibrations to the auditory nerve. This hereditary disease usually starts between the ages of 18 and 40. It is more common in women than in men and is slowly progressive.

The victim hears better in noisy surroundings because the background noise sets up coarse vibrations and also forces people to talk louder than they otherwise would. Because in otosclerosis sounds are heard more plainly by bone conduction than by air conduction, the victim has less difficulty hearing over a telephone than when talking to a person in the same room.

Since the person with otosclerosis hears his own voice via bone conduction, he thinks he is speaking louder than he is and is likely to drop his voice to a low pitch.

The sound of his own chewing, also transmitted by bone conduction, can be very distracting to him and makes it hard for him to hear what others are saying while he is eating. The victim may also be troubled by ringing in the ears.

Although there are other causes of hearing loss, the person who can hear a tuning fork better when the base is held against the back of his head than when the blades are held near his ear probably has otosclerosis, especially if there is no past history of ear infections and the doctor finds a normal ear drum.

Nearly all persons with otosclerosis can be helped by surgery. In the operation now preferred by most surgeons, the stapes is removed and replaced with a stainless steel wire or a small piece of polyethylene, a nonirritating plastic that is well tolerated by the adjacent tissues.

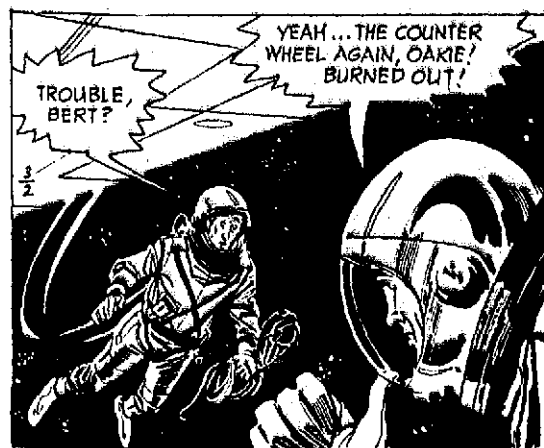

Although the results are usually better if the operation is performed early in the course of the disease, age is no barrier to this procedure. The patient can usually go home on the day following the operation, but how lasting the improvement in hearing will be cannot be judged until about three months later.

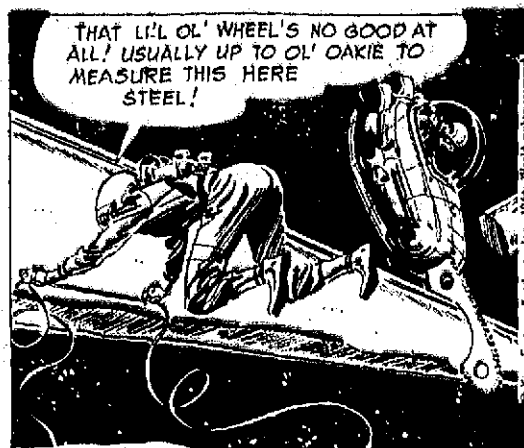

"I said no! I don't care who's spelling knee with a capital K this season!"

"Now that you're home, I think it's time our astronaut came off free flight and was put on manual control!"

THE BORN LOSE

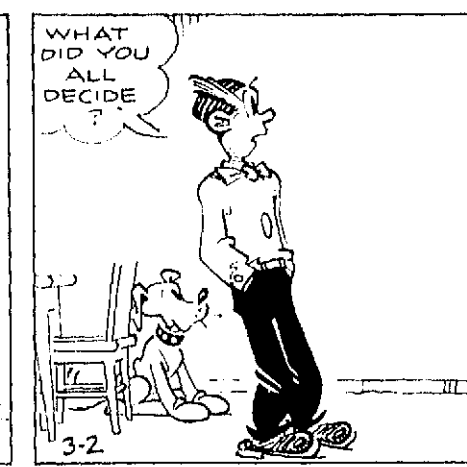

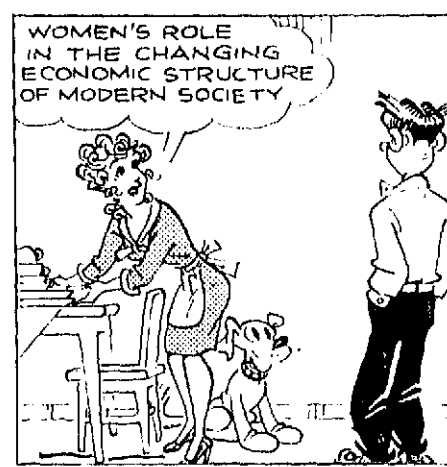

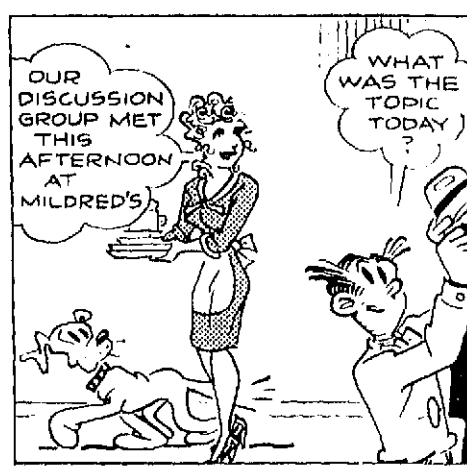

The largest members of the cat family—which can be traced through the fossil record to about 40 million years ago—are the tiger, lion, jaguar, puma, leopard and cheetah. The tiger is the largest; some weighing more than 500 pounds and growing to a height of five feet and a length of 14 feet. Of the above, only the puma and the jaguar are found in the United States.

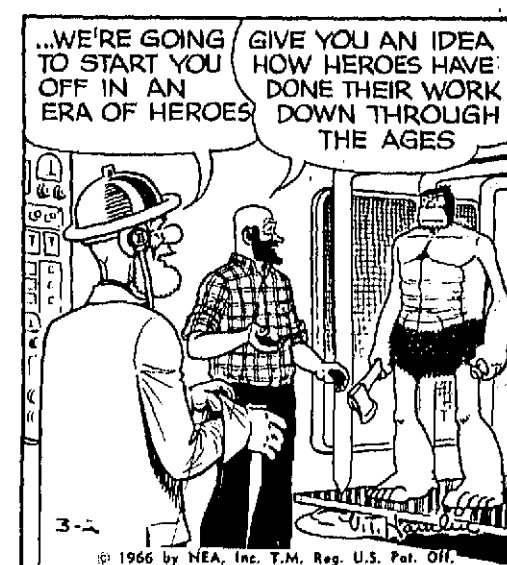

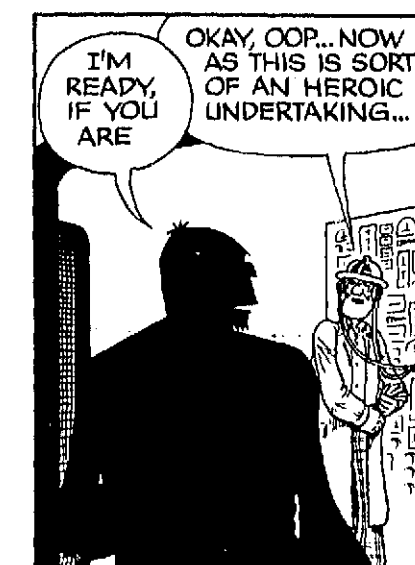

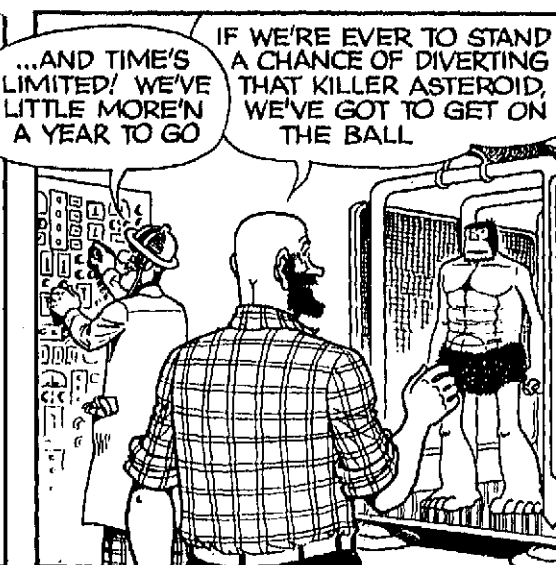

"I think I'm losing interest in Arthur. Sometimes 10 minutes go by without my thinking of him!"

Brightest Star

Samus, the Dog Star, is usually the brightest star in the heavens. It is larger than the sun 21 times as bright and has a considerably higher temperature. It is a very hot star, and now to the "blue-white" star, you have an entirely different set of circumstances.

Hubert to Be Questioned on War Policy

WASHINGTON (AP) — Vice President Hubert H. Humphrey faces questioning today on the administration's Asia policies after Congress' overwhelming passage Tuesday of a \$1.8-billion Viet Nam authorization.

Before approving the measure, the Senate crushed by a 92-5 vote an effort by Sen. Wayne Morse, D-Ore., to revoke a 1964 resolution which endorsed the use of force by President Johnson to combat Communist aggression in Asia.

Sen. J. W. Fulbright, chairman of the Senate Foreign Relations Committee — lead off man in the questioning of Humphrey at an afternoon closed session — joined the hard core of presidential policy critics backing the Morse move.

The House whisked the military supply measure through by a 392-4 vote. In the opposition were four Democrats, Reps. Philip Burton and George E. Brown Jr. of California, William F. Ryan of New York and John Conyers Jr. of Michigan.

Then the Senate wound up 15 days of debate by slapping down the Morse proposal. Joining Fulbright and Morse were Sens. Ernest Gruening, D-Alaska, Eugene J. McCarthy, D-Minn., and Stephen M. Young, D-Ohio.

The Senate's 32 Republicans voted solidly against the Morse proposal in an action Republican Leader Everett M. Dirksen depicted as registering party opposition to the "Morse viewpoint."

Gruening offered an amendment to prohibit the use of draftees in Viet Nam, unless they chose to fight there. It was chopped down by a 94-2 vote, with only Morse supporting Gruening.

Gruening and Morse cast the only negative votes when the Senate passed the money measure 93-2. A compromise of minor differences between the two Houses remained before the bill goes to the President.

Johnson Seeks Department of Transportation

By KARL R. BAUMAN

WASHINGTON (AP) — President Johnson asked Congress today to create a department of transportation pulling together many activities now handled elsewhere, and to provide \$700 million for a six-year highway safety program and \$200 million for the supersonic transport plane.

In urging a 12th Cabinet post, Johnson said "America today lacks a coordinate transportation system that permits travelers and goods to move conveniently and efficiently from one means of transportation to another, using the best characteristics of each."

He proposed the development of such a coordinated system as a principal assignment for the new department.

In the area of highway safety, Johnson proposed mandatory authority for setting up federal standards if voluntary methods fail.

Another proposal in that area was study of the feasibility of separate routes for trucks and automobiles.

And the President called for action to promote safety at sea, recalling recent disasters involving vessels not up to modern American specifications.

Hwy. Bids Will Total \$4.2 Million

LITTLE ROCK (AP) — The state Highway Commission announced Tuesday that it will open bids March 23 on nine projects — including two interstate routes — costing an estimated \$4.2 million.

The interstate jobs are surfacing of 6.4 miles of 140 from southeast of Clarksville to the U.S. 64 Interchange south of Lamar; and surfacing of 130 from the Arkansas 51 interchange near the Little Missouri River northeast to another segment of the route under construction.

Other jobs, by counties: Arkansas — Surfacing of 2 miles of Arkansas 152 Alternate from Arkansas 1 north and west along a proposed west bypass at DeWitt.

Benton — Construction of a rest area on U.S. 71 about two-tenths of a mile south of the Missouri state line.

Grant — Surfacing of 6.8 miles of Arkansas 46 northeast from the Saline River bridge.

Newton — Erosion control measures on 6.8 miles of Arkansas 16 from Edwards Junction east.

St. Francis and Lee — Surfacing of 7.97 miles of Arkansas 261 from Arkansas 121 at Holub to U.S. 70 at Palestine.

Scott — Construction of a rest area at the junction of U.S. 71 and Arkansas 23, about 11 miles north of Waldron.

Sebastian — Surfacing of 2.189 miles of Arkansas 271 from Arkansas 253 to U.S. 71.

Convicted of Raping Woman

RUSSELLVILLE, Ark. (AP) — Robert V. Schieck, 42, of Russellville, was convicted Tuesday on a charge of raping a 20-year-old woman. The jury set his sentence at life in prison.

He was convicted in July 1964 and sentenced to life in prison, but the state Supreme Court ordered a new trial, because the prosecution introduced evidence of a previous rape conviction.

The state contended Schieck told the woman he was taking her to a recording audition before attacking her on Mt. Nebo and again near Lake Nimrod.

Strike Halts the Paris Subway

By THE ASSOCIATED PRESS

PARIS (AP) — A one-day strike virtually halted the Paris subway system and extra police were ordered into the streets to cope with the flood of automobile traffic.

During the early hours of the strike auto, truck and bus traffic moved easily through the streets. But shortly before noon giant traffic jams formed at several main intersections.

Police officials set 300 additional men on the streets to direct traffic.

Whether it will ever become possible, according to the view of these officials, depends on changes in the attitude of the Chinese Communist leadership.

Some officials believe that the leaders in Peking, having suffered a variety of reversals during the past year or so, may now be confronted with a need for new policy decisions. But these officials also think that the result of a reassessment in Peking could be to launch Communist China on an even more dangerous course.

Hershey Says Public Does Not Understand War But Like Prosperity It Generates

By GAYLORD SHAW

WASHINGTON (AP) — Lt. Gen. Lewis B. Hershey, Selective Service director, said today Americans don't like and don't understand the "distant dim" war in Viet Nam but "they like the prosperity" it generates.

Hershey, who in nearly a quarter century as head of the Selective Service System has directed the military draft of 13 million young men, said the general public doesn't understand the war in Viet Nam because: "It's distant, it's dim and it deals with people they're not familiar with."

In an interview, Hershey, 72, criticized the tolerant attitude he said has developed toward those who deliberately break the law, said Americans may be leading too soft a life, again advocated universal military training and said he has no plans to retire.

Hershey said the Viet Nam situation is similar in some respects to the Korean war. "The public just never understood it like they did World War II," he said. "I think we've got some of the same problems now."

He isn't peeved by criticism of the draft, although he hastens to defend the system.

Only Tuesday, after 30 Republican House members called for an immediate investigation of the draft, Hershey pledged his cooperation and said, "I have always understood that one of the functions of the Congress is to look into how well the laws they pass are being carried out."

He was philosophical about criticism from individuals. "You can't blame people for being uncomfortable when somebody's going to put an obligation on them — that's human nature," he said.

He criticized, without mentioning names, the current debate over Viet Nam policy. "It's unfortunate anytime to leave the impression with other nations that there is weakness," he said. "Whenever there is confusion, the one looking at it tends to believe it indicates some weakness. Whenever you lack unity, you lack strength," he said.

In calling for unity, he said it is vital "to keep our youth believing in our country."

"The youth always have the responsibility of defending it. How can they defend it if they don't believe in it?"

As for those who argue "you ought to pick the laws you want to obey," Hershey said, "I think it is a very dangerous thing to do. I think you ought to obey all of them."

What about young men who burn their draft cards?

He describes these demonstrators as "misguided adolescents" and says, "They should be spanked. Maybe they should be inducted."

School Lunch Cut to Hit Opposition

By JOHN BECKLER

WASHINGTON (AP) — An election-year Congress is showing little willingness to go along with President Johnson's proposed cuts in education and school lunch programs.

Johnson sent a message on health and education to Congress Tuesday and won praise for the message he set of good health and education for all. But he also was put on notice he is for a fight if he insists on certain programs.

In particular, congressional ire has been aroused by the administration's intention to cut \$216 million in funds for schools in areas of federal impact, \$101 million from the school milk and lunch programs and \$12 million from land grant college funds.

"The President might as well forget any cuts in the impact on school milk programs," said Rep. Adam Clayton Powell, D-N.Y., chairman of the House Education and Labor Committee. After the message was read to Congress.

"Fucking for my colleague in the House," said Powell, "the President isn't running this year, but we are."

Similar views have been sounded in the Senate almost every day since the message was received in his budget message.

Marines Run Into Extremely Heavy Fighting

By THOMAS A. REEDY

SAIGON, South Viet Nam (AP) — Two U.S. Marine companies ran into heavy fighting late today in their drive to clear Communist forces from a canal-laced peninsula 55 miles southeast of the North Vietnamese border.

The action flared up again after the Viet Cong shied from contact Tuesday with the Leathernecks and Vietnamese troops hunting them down in the rice lands overlooking the South China Sea 12 miles southeast of the old imperial capital of Hue.

Monday the Marines reported killing 40 Reds and capturing many weapons.

The battle was taking place about six miles southeast of the Marine camp at Phu Bai.

Otherwise U.S. planes carried the brunt of the war against the Communists today. Only scattered skirmishes were reported from American and Vietnamese forces slogging through the jungle and rice paddies.

Air Force B52 bombers roared past slumbering Saigon before dawn to drop their 500- and 750-pound bombs on a suspected Viet Cong storage area near Bien Hoa, only 20 miles northeast of the capital.

State Charges Mrs. Mossler Is Guilty

MIAMI, Fla. (AP) — Candace Mossler knows today how it feels to have a finger thrust at her face and hear the official voices of the State of Florida charge that "she is the most guilty of all, even though she didn't strike the fatal blow."

The prosecution, which put her on trial for her life, with her nephew, Melvin Lane Powers, in the 1964 slaying of her multimillionaire husband, added: "She was his aunt and he'd do anything for her."

Mrs. Mossler hunched down an inch or so in her chair but no trace of emotion flickered across her face. An illicit love affair with Powers has been advanced by the state as a motive in the slaying of her husband, Jacques Mossler, 69.

"There is no motive here," the defense declared in a climax to Tuesday's full day of final trial summation.

The case is expected to reach an all-male jury no later than Thursday.

Mrs. Mossler, who gives her age as 40, and Powers, 29, are accused of plotting to have him bludgeoned and stab her husband June 30, 1964, while she deliberately absented herself with four adopted children from her Key Biscayne apartment.

Attorney General Hires Another

LITTLE ROCK (AP) — Lance Hanshaw of Jonesboro, formerly a law clerk to Chief Justice Carlton Harris of the state Supreme Court, joined the state attorney general's staff Tuesday.

Hanshaw, 27, is a 1963 graduate of the University of Arkansas Law School. He recently returned from a tour of duty with the Air Force.

Reapportionment Problems Over

WASHINGTON (AP) — Gov. Orval Faubus said Tuesday that a U.S. Supreme Court action "means that our legislative reapportionment problems now are over."

Faubus was commenting on the court's approval of the state's legislative reapportionment plan. He said he is pleased and gratified by the approval.

Has Operation

WASHINGTON (AP) — Sen. Frank J. Lausche, D-Ohio, is expected to remain in Bethesda Naval Hospital for about two weeks after surgery.

An aide said Monday that a urological operation was successful and that Lausche was in "very good" condition.

The spokesman said there were no complications.

AP News Digest

VIET NAM

Vice President Hubert H. Humphrey faces questioning on U.S. Asia policies after the overwhelming passage of Viet Nam military authorization by Congress.

Administration officials call impractical Sen. J. W. Fulbright's stand for a broad agreement with Red China to neutralize all of Southeast Asia.

Draft director Lewis B. Hershey says Americans don't like and don't understand the war in Viet Nam but "they like the prosperity" it generates.

"Don't like that little black rifle," a captured North Vietnamese says. The M16 is only one of the varied weapons U.S. forces use against the Communists.

INTERNATIONAL

Soviet advisers begin leaving Ghana. Eleven or more reportedly were killed in the revolt against President Kwame Nkrumah.

The Communists are expected to ask for early Security Council consideration of East Germany's application for U.N. membership. Its failure is believed certain.

WASHINGTON

An election-year Congress is showing little willingness to go along with President Johnson's proposed cuts in education and school lunch programs.

These new half dollars — only 40 per cent silver but still bearing the likeness of President John F. Kennedy — are expected to begin flowing into American hands within the next two weeks.

NATIONAL

A specially designed power wrench may make astronaut David R. Scott history's first space mechanic.

Silver Going Out of Half Dollars Next

By JOSEPH R. COYNE

WASHINGTON (AP) — Those new half dollars — only 40 per cent silver but still bearing the likeness of President John F. Kennedy — are expected to begin flowing into American hands within the next two weeks.

"We're trying to get them out as soon as possible," Robert A. Wallace, assistant secretary of the Treasury, said today. "We hope to begin circulating them in about a week or two."

Wallace, whose jurisdiction includes the U.S. Mint, is hopeful the new coins won't wind up the same way as the Kennedy half dollars containing 90 per cent silver which the Treasury began minting in 1964. In fact, he hopes the new halves will bring the older ones out of hiding.

Through last Monday, 409,085-450 of the original Kennedy half dollars had been minted but despite efforts of the Federal Reserve System to place them in circulation they have virtually disappeared.

Why?

Only theories can be advanced. Wallace said, and the best one is that they've become mementoes of the late president. Many — exact numbers are unknown — have gone overseas, he added.

Federal Programs Said Successful

WASHINGTON (AP) — Gov. Orval Faubus told Sargent Shriver, poverty program director, that three federal programs operating in Arkansas are successful.

Faubus met with Shriver Tuesday after taking part in ceremonies officially designating the new Ozarka region, which includes 44 Arkansas counties.

He told Shriver the Green Thumb project, and the Head Start and Youth Employment programs were operating successfully.

He told the poverty director that he would be glad to testify in favor of the poverty program at House Labor Committee hearings later this month.

County Favors Bonds for the Standard Gen.

Hempstead County residents voted overwhelmingly yesterday in favor of a \$222,000 bond issue to construct a building to allow the Standard Generator Co. to expand its plant.

The unofficial vote was 1000 for and 150 against. Only three precincts in the County voted against the issue, Saratoga, Bingen and Fulton. The rest was for and many boxes did not report a single vote against.

The new 41,600 square foot building will be located on the Hempstead County Industrial site on West Avenue B and construction should start in the very near future.

Standard Generator, a subsidiary of Missouri Research Laboratories, Inc., of St. Louis, employs 125 workers at its present site in the Proving Ground. After expansion the company will employ from 50 to 75 additional workers.

Yesterday's vote was under Arkansas Amendment 49. The bonds are secured by a 1½ mill levy which is never collected unless the plant involved defaults in payments.

Max Diamond, Chairman of the Board of Missouri Research Laboratories, Incorporated, and T. E. DeBlase, President of the Standard Generator Service Company division were pleased to hear about the overwhelming approval of the Bond Issue for its new building in the special election held in Hempstead County yesterday.

"Missouri Research Laboratories appreciates this expression of confidence of this community of which it has been a part for more than ten years. We also appreciate the efforts of those community leaders who have made this result possible," said Mr. Diamond. Mr. Diamond indicated to Chamber of Commerce and Hempstead County Industrial Foundation officials that plans have matured to a point that as soon as legal formalities have been fulfilled construction and occupation of the new building will be accomplished as rapidly as possible.

Standard Generator Division is waiting for the increased output of this, its third production plant, and is looking forward to an expanding high gear production. Missouri Research Laboratories hopes that the acreage provided with this bond issue will be utilized not only for this, but for future additional buildings in line with its expansion plans.

Air Pollution Subject at Kiwanis Meet

Clyde E. Fouse, chemist and local manager of the Tolber Corporation, appeared as guest speaker before Hope Kiwanis club Tuesday, using as his topic "Air Pollution."

He expressed deep concern over the problem which he said was growing and varied from city to city in the United States and in heavily populated industrial cities of foreign countries.

Man is competing with his machines which are polluting the air and is posing a very serious problem in many of our cities today, Mr. Fouse pointed out.

Air pollution from Los Angeles and other southern California cities is causing people in New Mexico to sneeze, Mr. Fouse quoted reports as saying. Chemists and researchers are studying reports linking air pollution with illness and diseases, Mr. Fouse went on to say.

His appearance before the Kiwanians was arranged by Dale Wood, program chairman.

Spacedogs Now in Second Week

MOSCOW (AP) — Soviet space dogs Veterok (Breeze) and Ugolek (Little Coal Lump) began their second week in orbit today.

The canine pioneers are in a satellite which for the first time was programmed to pass through dangerous zones of cosmic radiation in space.

An official account of the flight, published in all Moscow papers today, said it was "going successfully" but gave no indication of when the dogs would be brought down. They were launched early last Tuesday.

(NEA Telephotos)

ASTRONAUTS KILLED — Astronauts Charles A. Bassett, 34, of Dayton, Ohio, left, and Elliott M. See Jr., 38, of Dallas, Tex., scheduled to pilot the Gemini-9 orbital flight this spring, died in the crash of their jet training plane at St. Louis, Mo.

Two Arkansans Killed in Action

WASHINGTON (AP) — Two Arkansans were among 21 soldiers and Marines listed Tuesday by the Defense Department as killed in action or dead of wounds in Viet Nam.

They were Spec. 4 Joe N. James, son of Willis James of Eudora; and Pfc. Flemmon P. Freeman, son of Mr. and Mrs. Andrew Freeman of McCrory. Both were listed as killed in action.

Colleges to Go Up on Their Fees

RUSSELLVILLE, Ark. (AP) — The presidents of seven state-supported colleges have agreed on an increase in general fees next fall, one of them said Tuesday.

Dr. J. W. Hull of Russellville Arkansas Tech president, said the colleges intended to raise fees from \$90 to \$100 a semester to Arkansas students.

Hull said steadily rising costs of higher education prompted the decision.

The University of Arkansas, where fees are \$100 a semester for state students, has not taken part in the agreement.

General fees are comparable to tuition fees charged by private schools.

The seven state supported colleges are Tech, Arkansas A&M, Henderson, Arkansas AM&N, Southern State, Arkansas State Teachers and Arkansas State College.

Education TV Here by October

LITTLE ROCK (AP) — The state's first educational television station will be on the air by October, ETV Commission Director Lee Reaves predicted Tuesday.

Reaves said the station, UHF Channel 2, would broadcast regular courses, in-service teacher training and enrichment courses for the public schools.

Total cost of the construction and equipment is \$786,356.

The ETV commission has authority for two other stations, at Arkadelphia and Fayetteville, but the legislature has not yet made an appropriation for them.
